~ ~ ~ ~ LRAC Training – Level One Agenda ~ ~ ~ ~

9:00 AM Introductions / Purpose

- Overview of NNAA History (E9-1-1 Task Force)
- DCD/NNAA Organizational Structure (FY10 to Present)
- Addressable Structures (Flowchart, Guide Sheet)
- Categories of road/street (Based on Potential Address Points)
- Road / Street Identification – Exercise
- LRAC Tasks – FDC Process (Section III of Standards)
- Supporting Information (Resolutions, Structure Sign Costs)
- Discussion: Next Step

Separate appointments are advised for FDC/Map reviews; it is strongly advised that 30 minutes to one hour meeting be scheduled in addition to the review. Additional guidance can be provided based on initial review of data being submitted by LRAC; Due to funding, LRAC Work Sessions conducted in the field have been reduced & might be discontinued; in-house reviews with LRAC present have indicated to be more productive & advantageous for all involved due to additional NNAA resources.
